Summary: A Full Stack Developer with Strong Frontend Expertise and Versatile Skills

I am a highly skilled Full Stack Developer with a passion for creating dynamic and innovative web applications. Possessing exceptional proficiency in frontend development and web integration, I bring a proven track record of building visually appealing and user-friendly interfaces. My expertise extends beyond technical abilities, as I excel in various other essential areas, including communication, leadership, and collaboration. As an enthusiastic and adaptable professional, I am currently open for new work opportunities, jobs, collaborations, and deals.

Technical Proficiencies:

- Frontend Development: Proficient in HTML5, CSS3, JavaScript (ES6+), React, NextJs, MongoDB, Express, Git and GitHub (version control), GSAP, NodeJS, Sanity.io, Testing and Debugging, TypeScript, Experienced in crafting responsive and mobile-first designs, delivering exceptional user experiences across diverse devices and browsers.

- Mobile App Development: Skilled in Mobile App Development Using React Native, with 2 years of experience of creating cross-platform Applications for iOS and Android.

- CSS Frameworks: Expertise in css frameworks like Bootstrap and Tailwind CSS for style optimization and proficiency.

- Backend Development: Skilled in server-side programming using Node.js, Express, and Sanity.io. Familiar with RESTful API development and integration.

- Database Management: Proficient in working with NoSQL databases like MongoDB.

- Web Integration: Proven experience in integrating third-party APIs, payment gateways, and various web services.

- Version Control: Proficient in using Git and collaborative platforms like GitHub and Bitbucket.

Key Skills:

- Communication: Excellent verbal and written communication skills, adept at conveying complex technical concepts to both technical and non-technical stakeholders. Experienced in client interactions, requirement gathering, and project management.

- Suitability for Remote Work: Proven ability to excel in remote work environments, demonstrating self-discipline, effective time management, and clear communication in virtual settings. Comfortable with remote collaboration tools and practices, ensuring seamless contributions to projects regardless of geographical location.

- Leadership: Strong leadership capabilities with a demonstrated ability to lead and mentor development teams, fostering a collaborative and productive work environment.

- Problem Solving: Analytical and detail-oriented approach to problem-solving, with a strong focus on delivering efficient and scalable solutions.

- Creativity: A creative mindset that enhances the ability to design visually appealing user interfaces while maintaining a seamless user experience.

- Team Player: Adept at working collaboratively within cross-functional teams, valuing diverse perspectives and contributing positively to group dynamics.

- Time management: Exceptional time management skills. Efficient, organized, and adept at meeting deadlines. Maintains focus and prioritizes effectively. Drives productivity while ensuring work-life balance.

Experience:

Freelance Full Stack Developer - Led frontend development and collaborated with backend teams to create dynamic web applications. Successfully integrated APIs to enhance functionality and improve user experiences in my team.

Freelance Frontend Developer - Developed and maintained visually appealing user interfaces for high-traffic websites. Implemented responsive designs, resulting in a significant decrease in bounce rates.

Freelance Team Lead - Supervised a team of developers in my team, fostering professional growth and delivering projects on time and within budget.

Education:

Undergraduate, Caleb University Studying Cyber Security – Ongoing

Relevant Courses: Certificates from Coursera in cloud computing and Web development in HTML CSS and JavaScript.

Open to New Opportunities:

I am currently seeking new challenges and opportunities where I can leverage my diverse skill set and passion for web development. Open to freelance projects, job offers, collaborations, and other exciting ventures.
